

# MOBILE TOOL STORAGE

**Stow, organise, secure and transport:  
GEDORE has a solution for all these  
requirements in its extensive tool  
storage range.**

Tight construction spaces, unpaved access roads,  
frequently changing work locations: workplaces  
outside the workshop are as varied as the work that  
has to be done there.

In addition to the tried and tested toolbox, which can  
withstand even the most adverse conditions on the

construction site, GEDORE offers a series of cases and the MIXX&CLICK® modular system. A solution based on the Sortimo® transport box system. The BOXX®en, tool modules and the extensive range of accessories offer every conceivable scope for individualisation and can be combined to form a well-organised "workshop-to-go". Another plus: MIXX&CLICK® is fully compatible with Sortimo's load securing concept from Sortimo®. Tool storage from GEDORE - flexible, mobile, safe and light.

# i MIXX & CLICK

The GEDORE modular system

**GEDORE L-BOXX® 136  
POWERED BY SORTIMO®**

The Sortimo transport box system is perfectly suited to the needs of mobile use. The basis for the MIXX&CLICK modular system is the tried and tested GEDORE L-BOXX® 136 with front handles and tool card in the lid, as well as the GEDORE i-BOXX® 72. These are multi-compatible and therefore extremely flexible, allowing a high degree of customisation. The MIXX&CLICK system is particularly impressive because of the countless combination options offered by the pre-configured GEDORE tool assortments - modules from other manufacturers, such as Bosch power tools, can also be used. In combination with other components from the Sortimo® world (transport boxes and system components), you can create a well-organised workshop "to go", that is tailored to your personal needs.
